CONTENT

Listen and play the incomparable Celeste 236(R)

In the new Celeste series Content allows access for a large group of organ enthusiasts to enjoy the qualities of the Invention Technology that has recently been developed by our company.

The Content Celeste is a versatile instrument that offers four distinct and unique sound worlds. Four different traditional specifications of stops are offered enabling you to play the works of the great masters in the particular sound of their actual time frame, thus doing justice to the pieces performed.

Elegant sound character

The technology has greatly contributed to improve the sound and the experience of the Celeste. Attention to detail and a further refinement have created a dynamic and comprehensive instrument you would want to carry on to play on an instrument and that keeps inspiring over time.

The Content Convolution reverb is a standard feature in the Celeste series and offers a sampled reverb that holds all the idiosyncrasies of a particular acoustical environments.

You may select from ten different acoustical environments at choice. The sound reproduction system with the loudspeakers being fed from digital amps and powered by digital power supplies create an unparalleled sound. The result is a sound organ character that brings pleasure and inspiration for organists and listeners alike for many years to come.

Flexibility

Through the multitude of registration features, the four individual samples per stop and the easy way to adjust the organ and the individual stops and ranks to personal preferences by using the inbuilt PCC (Personal Control Center) a very flexible instrument has been created. Of course each individual stop is based on an individual and specific sample that has been recorded from famous pipe organs the world over. See, play and hear the Content Celeste and convince yourself of the intrinsic value of this fine instrument.

Important features Celeste 236(R)

- 2 manuals
- 30 note parallel pedal board (optional: concave and radial concave)
- Console featuring extensive use of solid wood
- 4 independent specifications of stops
- 4 x 36 speaking stops
- Touch sensitive keyboards
- For each of the specifications of stops 10 x 45 = 450 programmable presets
- Convolution reverb
- Programmable General Crescendo
- Flexible PCC Personal Control Center
- VPP Virtual Player Position
- Cantus Firmus
- Automatic Pedal
- Over 30 historical temperaments
- Wind drawer select
- Flexible wind supply
- Physiologic expression pedals
- Standard in light or medium oak
- Available without or with locking roll top
- Additional options please consult your dealer or our pricelist
